Profile

Motivated and hardworking Computer Science Undergraduate with a strategic mindset and a proven ability to develop and deliver high-quality solutions efficiently. Dedicated to teamwork, innovation, and problem-solving to drive success, and committed to continuous learning and leveraging technology to create impactful solutions.

Skills

Communication |
Team Work | Leadership |
Time Management

Tech Stack

Programming — Java, Python,
Frontend — Next.js, React.js,
Javascript, Framer Motion,
Webflow | **Backend** —
PostgreSQL, Supabase |
Tools & Platforms — Github,
Vercel, Render, Railway | **AI / ML**
— Qdrant (Vector DB), Neo4j
(Graph DB)

Education

BSc (Hons) Computer Science

University of Westminster

Sep 2024 – Present

2nd Year Modules

- Object Oriented Programming / Database Systems / Software Development Group Project / Client-Server Architectures / Machine Learning and Data Mining / Algorithm

1st Year Modules

- Software Development I / Software Development II / Mathematics Computing / Trends in Computer Science / Computer Systems Fundamentals / Web Design and Development.

GCE Advanced Level Examination

St. Peter's College Colombo 04.

2023

- **B and 2Cs (Mathematics)**

GCE Ordinary Level Examination

St. Peter's College Colombo 04.

2021

- **9As**

Diploma in Information and Communication Technology

University Of ICBT

2020

Diploma in Speech and Drama

Institute of New Era Academy London

2019

Professional Experience

Trainee Software Engineer

Inivos Technology (Pvt) Ltd

Apr 2024 – Oct 2024

Revamped the company's main website and executed end-to-end UI designs for multiple internal and external Projects.

Projects

Law Learning Platform (Nyaya) [↗](#)

Sep 2025

Nyaya is a legal education platform for Sri Lankan constitutional law that features an interactive quiz system and an AI-powered Citation Manager. Built with Next.js, TypeScript, and Tailwind CSS, the application utilizes a FastAPI backend and a Hybrid RAG pipeline to provide source-referenced answers from a database of over 9,500 legal document chunks. The system integrates Groq for intelligent retrieval, leveraging Qdrant for semantic search, Neo4j to model complex legal relationships, and Supabase (PostgreSQL) for secure user authentication and real-time performance analytics.

FBL Soccer Academy Management Platform [↗](#)

Mar 2026

FBL is a football academy management platform built with React and FastAPI that digitises operations across multiple training locations in Sri Lanka. Features include AI-powered student enrollment using Groq's Llama 4 Scout vision model, location-based session scheduling, attendance tracking with historical records, and payment management — secured with Supabase Auth and role-based access for admins and coaches.

Cherry Global Website [↗](#)

Sep 2025

A venture-backed supply chain ecosystem website created using Webflow, showcasing AI-driven automation, strategic advisory, and digital transformation services for global logistics networks.

ConexusOne Website [↗](#)

Nov 2024

A unified, AI-powered logistics platform developed in Webflow, facilitating real-time supply chain visibility, automated freight management, and sustainability tracking.

Achievements

Head Prefect of St. Peter's College Colombo 04.

- Head Prefect of St. Peter's College for the year 2023/24.

Peterite Gold Award

- A prestigious award for academic and overall excellence at St. Peter's College.

National Football Representation

- Represent Sri Lanka in the U-15 SAFF championship held in India 2019.
- Represented Sri Lanka in the U-16 AFC Championship held in Jordan 2019.

College Football Representation

- Captain of U-20 Soccer Team of St. Peter's College.
- Most Outstanding Sportsman for the year 2019.
